Michael Orcutt

Michael Orcutt represents licensed professionals in courts across the state of Arizona and before regulatory and administrative bodies, such as the Department of Real Estate, the Department of Insurance and Financial Institutions, and the Arizona Association of Realtors®. His practice includes the defense of real estate agents and brokers, architects and engineers, law firms, insurance brokers, appraisers, and other professionals, through all stages of litigation, from pre-suit mediation to appeals before the Arizona Court of Appeals and the U.S. Court of Appeals for the Ninth Circuit. As part of this practice, Michael has obtained complete defense verdicts for licensed professionals in more than one dozen bench and jury trials in Maricopa, Pima, Coconino, and Yavapai Counties.

Michael serves as outside general counsel to several large real estate brokerage groups in Arizona, including both traditional home and luxury home market brokers and agents. In this role, he is frequently sought to advise on arising issues resulting from market trends and serves as a sounding board. He also represents property owners' associations as general counsel and in the defense of director and officers' liability claims.

Outside of his professional liability law practice, Michael represents individuals and entities in a wide range of commercial litigation matters, where he emphasizes providing cost-effective representation and exploring creative solutions to achieve the best possible outcome for his clients. He also has extensive experience handling all types of real property matters, including construction defects, easements, adverse possession, quiet title, partition, nuisance, and boundary disputes. Following the housing market downturn in 2008, Michael counseled hundreds of homeowners regarding short sale and foreclosure options, and he regularly litigated post-foreclosure lawsuits under Arizona's anti-deficiency statutes.

Additionally, he assists builders and investors in their commercial and large real estate transactions.
